

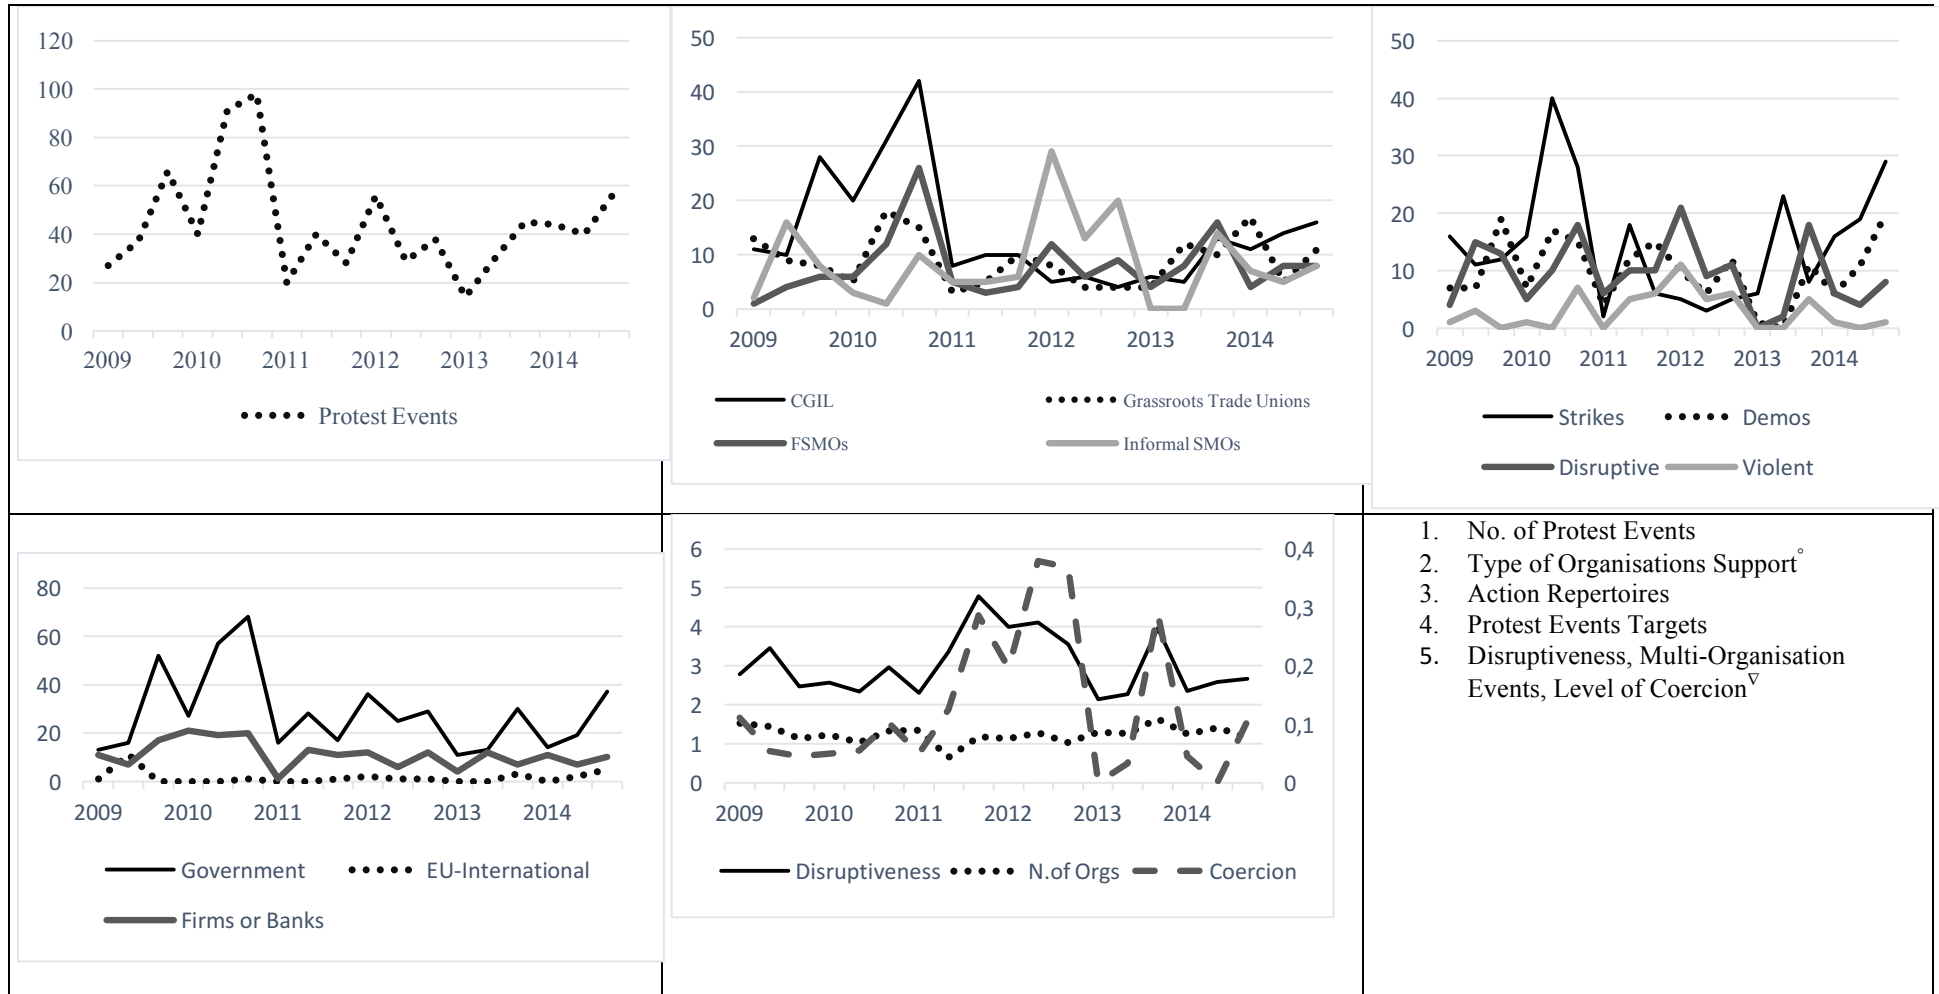

Figure 3 Protest Events main statistics: four-month average

^o FSMOs: mainly national formal social movement organisations; non-governmental organisations; voluntary associations. Informal SMOs: mainly local social movement organisations, social centres, local committees, etc.

^v Disruptiveness: Sum of different forms of action in each event assessed by level of disruptiveness (Conventional= 1; Demonstrative=2; Disruptive=3; Violent=4). Conventional forms are petitions, leafleting and public or informational meetings; Demonstrative forms are demonstrations, strikes and public symbolic actions; Disruptive Forms are blockages, blitzes, squatting, street or square occupations and similar forms; Violent forms are violence against things (banks, cars, etc.) or against people (for instance clashes against the police). Multi-organisational events: Number of different types of organisation by protest event. Level of coercion: number of police intervention by protest event.
